RAS-REM Series Remote Control Panels

bdi
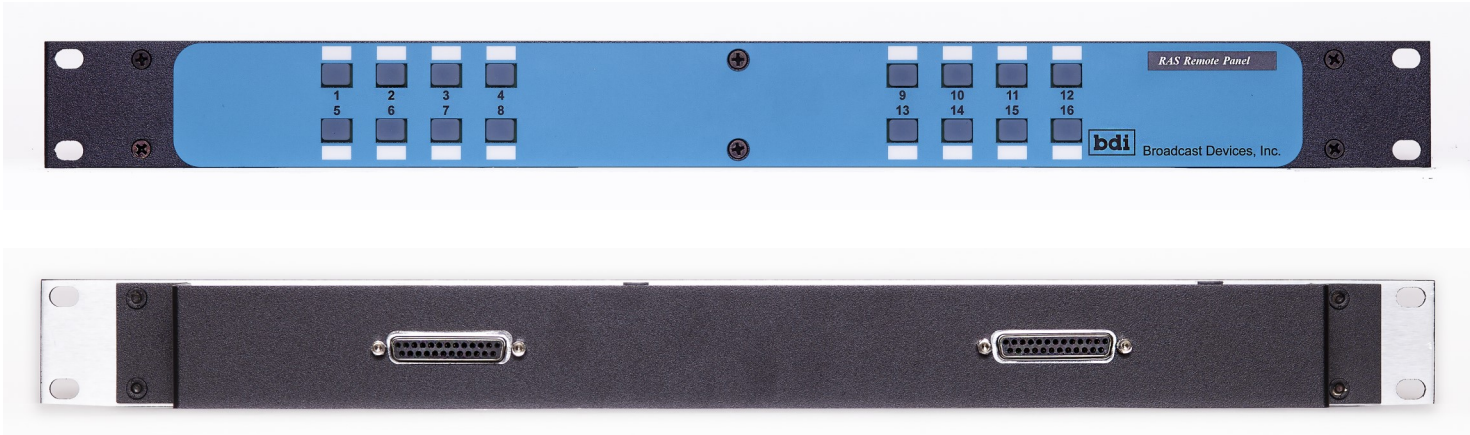

The RAS-REM Remote Control Panel is an interface panel that is identical in look and function to the front panel of the RAS-216 Passive Audio Switcher available from BDI. Two types are available one for short distances and another for longer distances. For short distances the RAS-REM-P is accompanied by a 6 ft. cable for direct connection to the rear of any RAS-216 switcher. For longer distances the RAS-REM-S is available which provides long distance RS485 serial connection up to 1000 feet. The RAS-REM-S uses standard CAT5 cable for interconnection.

Technical Specifications:

Number of controls:	16 pushbuttons
Rear Panel Interface:	DSUB44F for RAS-REM-P, RJ45 for RS45 for the RAS-REM-S
Dimensions:	19" L X 1.75" H X 2.25"D Standard EIA 19" rack panel
Environmental:	0-60 degrees C Non Condensing Atmosphere

Note: 6 ft. DSUB44M/F cable supplied for RAS-REM-P

25ft. CAT5 Shielded cable and adapters supplied for RAS-REM-S
